

# WATER MANAGEMENT

## WE ALL CAN MAKE A POSITIVE DIFFERENCE

### ANADARKO IS REINTRODUCING WATER INTO THE ENVIRONMENT

- Anadarko uses large EMIT units remove sodium and other cations from Coal Bed Methane produced water
- Water can be discharged into local rivers and used for irrigation for surrounding acreage plans and habitat enhancements

**ANADARKO PROVIDES WATER TO WYOMING CITIZENS**  
 As of May 31, 2009, Anadarko reintroduced 173 million barrels of water into the rivers and streams to be used by Wyoming's citizens. That's the daily demand of over 18 million families.

### ANADARKO RECYCLES MILLIONS OF BARRELS OF WATER PER YEAR

- Developed two onsite water recycling units in Vernal Utah to reuse filtered completion water rather than send it to disposal

## HOW YOU CAN MAKE A POSITIVE DIFFERENCE

- **Shorten your shower** and save up to 150 gallons per month. It also saves on the energy needed to heat the water.
- **Turn off running water** when washing dishes or brushing your teeth
- **Collect rainwater** for watering backyard plants and gardens
