Midstream

The Midstream group provides services to its exploration and production segment within Anadarko and for third-party producers. These services include gathering, compression, treating, dehydration and processing of clean-burning natural gas for delivery to downstream customers. We enhance the value of Anadarko production by controlling more points of the natural gas value chain and selling products closer to the end user.

As a member of our team, you will work alongside industry professionals in planning, finance, operations, business development and engineering, make contributions that add significant value to the corporation, and engage in meaningful projects that sharpen your skills and demonstrate your abilities.

Marketing

As a new marketing professional at Anadarko, your initial assignments will include learning the fundamentals of oil and natural gas supply and demand, transportation, pricing and project-based economics. You'll become an integral part of the team, as you gain a working knowledge of the fast-paced energy industry.

Discover Your Potential

Anadarko employees are given the chance to work on challenging and rewarding projects across many horizons. We give you the responsibility from day one and provide the support you need to make meaningful contributions to our team. Our success is driven by great thinking, a willingness to share and grow knowledge and a common desire to find new ways to solve challenges. At Anadarko, you gain real experience and discover your potential.

"Anadarko offers a number of opportunities for me, in the present as well as the future. Anadarko offers the chance to work for a company that is highly regarded for its work in the industry and the community."

"I chose Natural Gas Scheduling after participating in the wonderful internship program here at Anadarko. The internship program showed me that Natural Gas Scheduling required a self-motivated, organized and dedicated person."
