# DISCOVER ANADARKO

Anadarko employees have the opportunity to work on challenging and rewarding projects across many horizons. Our success is driven by innovative thinking, a willingness to share and grow knowledge, and a common desire to safely find and develop the energy resources our world needs.

Committed to protecting the environment, public health and the communities in which we live and work, while finding and producing the vital oil and natural gas resources that fuel modern life

A Fortune 500 company with a premier position in major U.S. onshore shale and resource plays, oil-focused opportunities in deepwater basins worldwide, and a transformational LNG project in Mozambique

Ranked second in Rigzone's top independent companies where oil and natural gas professionals want to work

## DISCOVER Petrophysics Internship

### Your Talent in Action

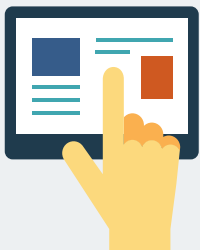

The role of a petrophysicist is to quantitatively characterize reservoirs within plays from early exploration through development to production. From estimating the reserve potential of a developing field to establishing the flow capacity of reservoir quality rocks in an exploratory basin, petrophysicists are data- and technology-driven people.

### Accelerate Your Career

Discover how Anadarko's petrophysicists use leading-edge technology and innovative ideas to unlock new resources. As a petrophysical intern, you'll be engaged in meaningful projects with real responsibility. Most of our new recruits join the company after working as an intern at Anadarko. Others are recruited from collegiate graduate programs.

### Petrophysicist Experiences:

- Inter-disciplinary role that interact with geologists, geophysicists and engineers
- Innovative opportunities to work toward the next big discovery or maximizing the value of existing fields
- Involvement in every project at Anadarko
- On-the-job training and mentoring
