ANADARKO IS ... PROVIDING FOR TODAY, INNOVATING FOR TOMORROW

Anadarko Petroleum Corporation’s mission is to deliver a competitive and sustainable rate of return to shareholders by exploring for, acquiring and developing oil and natural gas resources vital to the world’s health and welfare. As of year-end 2013, the company had approximately 2.79 billion barrels-equivalent of proved reserves, making it one of the world’s largest independent exploration and production companies.

Anadarko In Algeria

2014 marks 25 years since Anadarko signed the original contract in Algeria. In 1998, Anadarko and Sonatrach formed a joint-operating association called Groupement Berkine. Today, Groupement Berkine’s management is based in Hassi Messaoud. The facility operations and engineering departments, maintenance, logistics and health, safety and environment (HSE) employees are located at the field site in Hassi Berkine.

The company and its partnerships are currently producing oil from three mega projects (Ourhoud, HBNS and El Merk). Production from El Merk, the newest mega project, commenced in March 2013.

Anadarko Algeria Key Statistics

- 3 world-class facilities on line
- Discovered 2+ billion barrels of oil
- 1.8 billion barrels of cumulative production
- Installed facilities with capacity of more than 500,000 barrels per day
Corporate Responsibility
Anadarko is focused on safe and responsible energy production in all areas in which it operates. We are committed to being valued members of our communities and to having a positive impact on the areas where we do business.

In Algeria, the company has a long history of supporting local initiatives that provide shared benefits for our neighbors.

Careers Center
Anadarko sponsors the Careers Center at Ouargla University, along with the NGO World Learning. The Center provides students the opportunity to refine their abilities to write, interview and draft cover letters, as well as other soft skills necessary for professional development.

Student Visit to HBNS
Anadarko hosts tours of the Central Processing Facility (CPF) at HBNS to provide students with a better understanding of a working producing facility to complement their academic development.

Scouts Soccer Pitch
Anadarko funded the construction of an Astroturf football pitch for the Hassi Messaoud Scout Camp, contributing to a doubling of the Scout Group in the first three months following the pitch’s completion. Anadarko has supported the Scouts in Hassi Messaoud since 2009.
